### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification; page 1, line 15 insert --, now U.S. patent No. 6,676,012-- after "2000".

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

In particular, the prior art of record fails to disclose the claimed method of forming a container from one-piece blank comprising among other steps the steps of "forming the side panels by folding the side panels at a 90 degrees angle from the folded blank. . . and defining the two compartments in combination with the transverse rib, each of the opposing sides being formed by the combination of two side panels, each of the opposing sides having one of the side panels being longer than the other side panel, the length of the opposing sides being greater than each of the individual lengths of the two side panels"; the step of "securing the two longer side panels to their adjacent side panels"; and the step of "reinforcing the corners of the container
